

Deployment Packing List

Minuteman Disaster Response (MDR) works hard to make sure you have everything you need to be successful in the field, but some things are more personal than others. Below you will find a detailed list to use when packing your bags for the next deployment. Every team member needs both an overnight bag to sustain them for 72 hours and a field bag to make sure you have the needed gear to get the job done. Keep in mind that MDR is not responsible for lost or stolen gear while deployed.

Get Your Gear:

You may already own some or all of the gear needed for your next deployment. There are a lot of great places that you can purchase new gear and some items can be purchased through the MDR Web Store.

Tips:

- If you can't carry all your stuff in one trip...you have too much
- Low-tech = Low chance for failure
- Use trashbags and ziplocks to protect your items from getting wet
- Be mindful of the climate/weather for the area you are deploying to
- Check your gear at home to make sure it works before deploying
